## NivoTec® 5000

### LEVEL MONITORING AND ALARM

Easy, plug-and-play level monitoring. With a dual line sun bright display, audible and visual alarms for high & low level alerts, the NivoTec® 5000 will always keep you informed to your level.

# NivoTec® 5000

- Display of the vessel fill level in LED
- Built-in power step down for loop powered devices
- NEMA 4X / IP65 Front
- Dual-Line 6 Digit Display
- Free PC Software for USB Programming
- High/Low Level Audible and Visual Alarm
- Display Input in Two Different Scales
- Works In-Line with PLC
- Available with up to 6 meters in one box

## Transmitter Bundle

NivoTec® 5000 is the perfect companion to a 4-20 mA level transmitter. With built in power step down, the NivoTec®5000 serves as a power supply for any loop powered transmitter. Upon request, UWT will pre-scale the meter before delivery. Making it a true plug and play, turnkey system.
